**YOUR FUTURE.
OUR COMMITMENT.**

Knowledge is Power - Viewfinder Provides For Your Knowledge

With Viewfinder you can monitor the day-to-day operations of your transportation department from any phone, tablet or computer. Quickly access updates on students, trips, field trips, and vehicles, and communicate with staff to ensure your operation runs smoothly and efficiently.

Increase Efficiency with Data at Your Fingertips with Viewfinder

- ✔ **Stop the Phone Calls** - Staff can quickly find anything, including students' bus, stop times, vehicles' GPS location, or ridership, all in one easily searchable location.
- ✔ **Unlimited Users** - Viewfinder is available for every member of your district staff, so nobody is left in the dark.
- ✔ **GPS and Ridership Tracking** - District staff can easily find a vehicle's live location or check a student's ridership.
- ✔ **Keep in Touch** - Access real-time chat communication to send messages, documents, or links to students and route information internally with **Chatfinder**.
- ✔ **Track Key Metrics** - Real-time KPI dashboards let your team view what buses are running late, track on-time performance to schools, and know who is riding.
- ✔ **Student Data Lookup** - With **Studentfinder Kiosk**, users can simply scan an ID card with a card reader and see a student's bus information, driver, stop times and more.
